

Helmsman Model Rail

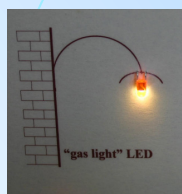

are proud to present a complete range of powerful, cool-running, model railway controllers.

Our "Carbon Fibre" range of controllers have been completely redesigned with a sturdier, smarter case and new electronics circuit board which has made it possible to produce the remote control unit as an "add-on" extra for most models. Available as a wired remote control or a radio remote control, they operate not just with the "CF" range, but with the earlier "RC" range of controllers too. Controller models range from a 2A unit up to the 5A unit which is ideal for today's big "0" gauge diesels and LGB units which we recommend for garden railways and other large layouts to overcome voltage drop.

Our LGB version has also proved very popular with the 20V AC Hornby collector. **ALL MODELS IN THE "CARBON FIBRE" RANGE HAVE A LIFETIME GUARANTEE.**

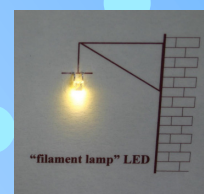

See them demonstrated (complete with short-circuit) at exhibitions.

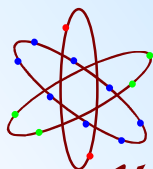

Warm glow
"gas light"

Our "gas light" & "filament lamp" LEDs have been manufactured to closely match the colours of the early street & station lights but are useful for coach lighting and Heljan diesel headcodes.

We also make lighting effect modules such as flickering paraffin lamps, flashing tail lights, firebox simulators, braziers and police beacons.

Off white
"electric light"

Price list valid from 31st July 2018

MODEL	CONTROLLERS	
1A	Mains powered 1 Amp output	£ 55.00
CF2A	Mains powered 2.5 Amp output	£155.00
CF5A	Mains powered 5 Amp output	£175.00
CF5M	Volt & Amp meter version of CF5A	£255.00
CF5LGB	Mains powered 4.5 Amp output @ 20 Volts (for LGB & garden railways etc.)	£185.00
CF5LGBM	Volt & Amp meter version of CF5LGB	£265.00
RM5	Remote handset for all CF series controllers	£ 45.00
RF5A/2	Radio remote control for all CF series controllers	£140.00
30A	Mains powered 30 Amp output (NO 16V AC) + Volt & Amp meters	£435.50*
30RC	Remote controlled version of 30A	£485.50*
POWER UNITS		
CF2AC	Mains powered 2 x 16 Volts AC @ 2.5 Amps	£ 60.00*
CF5AC	Mains powered 2 x 16 Volts AC @ 5 Amps	£ 80.00*
CF10AC	Mains powered 2 x 16 Volts AC @ 10 Amps	£100.00*
LIGHTING EFFECTS		
BCN/O	Beacon, orange	£ 12.50
BCN/B	Beacon, blue	£ 13.00
FTL/0	Red flashing tail light for 0 gauge	£ 14.00
FTL/00 or /N	Red flashing tail light for 00 or N gauge	£ 15.00
FKTL/0	Red flickering paraffin tail light for 0 gauge	£ 13.00
FKTL/00 or /N	Red flickering paraffin tail light for 00 or N gauge	£ 14.50
BR	Orange brazier simulator	£ 12.50
FB	Yellow + Orange flickering firebox simulator	£ 15.00
GLLEDM	Gas lamp effect kit, multi-pack of 5	£ 5.00
FLLEDM	Filament lamp effect kit, multi-pack of 5	£ 5.00

* Prices subject to review and will be confirmed on ordering
